BOX II. OBSERVATIONS WHERE UNITY OF INVENTION WAS LACKING

This ISA found multiple inventions as follows:

Group I, claim(s) 1-17, drawn to Process #1.

Group II, claim(s) 18-19, drawn to Process #2.

The inventions listed as Groups I and II do not relate to a single inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I has the special technical feature of the use of a cyclic carbonate, e.g. butylene carbonate. Group II has the special technical feature of using an epoxide. It is also noted that Group I requires the use of a specific solvent, while Group II does not.
